PROFESSIONAL SUMMARY

Project Manager and business operations leader with 6+ years managing end to end client delivery, business development, digital marketing, e-commerce operations, and AI-powered automation systems. Proven at leading cross functional teams of operations managers, managing distributor and seller networks, launching and scaling a private label brand as Founder, and building Python and AI driven automation tools that streamline business operations. Combines strong client facing project leadership with hands on technical execution across marketing, web development, and process automation.

PROFESSIONAL EXPERIENCE

Project Manager, EterPride Pvt. Ltd. *Oct 2022 to Present*

Promoted from Business Analyst to Project Manager

- Manage end to end delivery for up to 12 concurrent client accounts, spanning digital marketing, content, operations, and reporting workstreams.
- Led client pitching and requirement gathering sessions, aligning project roadmaps with business goals and securing new contracts.
- Redesigned the client reporting process by building personalized dashboards, which improved transparency and reduced client side queries.
- Mentored a team of operations managers, designing new workflow systems and providing regular performance coaching to improve team efficiency.
- Ran lead generation campaigns for luxury real estate clients with a ticket size of Rs. 2cr to 5cr, using Google Ads, Taboola Ads, and WhatsApp automation for retargeting.
- Led an edtech product launch campaign for a Canadian university, brand awareness campaigns for a nutrition supplement startup and a furniture brand entering the USA market, and event promotion campaigns for education and property expos.
- Directed content marketing and SEO strategy that grew organic search rankings for the company website following its overseas launch, and managed Amazon Seller Central and Ads for e-commerce clients across fashion, nutraceutical, jewellery, and art categories.

Business Development Manager & Business Analyst, Qfonapp Ltd. *Apr 2020 to Sep 2022*

Joined as Business Development Executive, promoted twice

- Developed and implemented user acquisition strategies, including paid channels, that drove 200,000 new users and a 15 percent increase in daily revenue.
- Designed and deployed an employee workflow system that improved productivity and reduced the need for constant supervision.

Business Development Executive, Varmora Group Pvt. Ltd. *Jun 2019 to Mar 2020*

- Managed seller and distributor relationships across multi state territories, including onboarding and network expansion.
- Coordinated stock dispatch and inventory management across the supply chain.

Founder, Chamlooks Pvt. Ltd. (Private Label eCommerce Brand) *2020 to 2021*

- Founded and launched a private label e-commerce brand, overseeing product sourcing, operations, and go-to-market execution, including paid social promotion.

eCommerce Consultant, Independent, Freelance *2021 to Present*

- Provide strategy, operations, and growth consulting for e-commerce businesses, including paid social and content-driven growth, across the fashion, nutraceutical, jewellery, and art industries.

WordPress / Webflow / Shopify Developer, Independent, Freelance *2020 to Present*

- Design and build custom, high performance websites and digital storefronts for clients' marketing campaigns.

AI AUTOMATION & INDEPENDENT PROJECTS

- AI-Powered eCommerce Image & Video Automation: Built automation workflows that convert raw product photography into publish ready e-commerce images and video for clothing, jewellery, and lifestyle sellers, improving scalability for high SKU catalogs.
- Python-Based eCommerce & Shopify Automation: Built Python automations to generate bulk upload CSV files, structure and process product data, and automatically upload product images to Shopify, streamlining repetitive catalog operations.
- AI-Powered SEO & Content Automation System: Designed an automated content pipeline covering topic research, trend filtering, keyword clusters, content generation, and publishing for free and paid client workflows.
